

A Mother's Stories

Gunny

A Mom's Story Testimonial # 149

"I'm a single mom from Ontario who taught school for 15 years until my youngest daughter contracted **leukemia** at the age of two and underwent intensive chemotherapy for the next 3 yrs. She has been disease free for 8 yrs now. She will take Immunocal forever to keep her IMMUNE SYSTEM working at an OPTIMAL LEVEL. And it has been. Whatever the going bug during the school year, she won't catch it !! My other daughter used to suffer from life threatening **asthma** attacks. Hospital admissions, steroids, specialists etc. etc. She turned 16 last Friday and is passionate about sports. She's been on Immunocal for a year now . Not one attack, no steroids, not even a steroid inhaler. It's been simply miraculous! She takes Immunocal for the clinically proven and documented substancial effects of increasing athletic performance... At 16 , that is what motivates her infinitely more than an optimally functioning immune system. Her asthma has all but DISAPPEARED... My elderly 91yr old mother has been on 2 packets of Immunocal for 2 yrs now. Her debilitating **arthritis** pain has disappeared entirely! She also suffers from ARID (**Age Related Macular Degeneration**) which is a leading cause of blindness in the elderly. Her condition has not only NOT PROGRESSED in the last 2 &1/2 yrs, she can actually see better. And even though she is declared as "legally blind", she still lives alone and manages very well. As for myself, even though in excellent health,I take from 2 to 4 packets of Immunocal daily, and I have not even suffered from so much as a cold in the last 2 yrs. I do have a history of **MIGRAINES** , however, and still suffer from them on occasion. What is exciting is, that now they will dissipate with just 'Anacin', while before I would be out of comission for that day."

Sincerely, Gunny

Michael

A Mom's Story Testimonial # 150

My son Michael started taking HMS 90 and Xtrasharp on a daily basis in May of 2005. Since then both he and I have been delighted to see a dramatic change in his grades. At the time he started, his grades ranged from 50 to 70 percent. That range has jumped 20 points across the board, to the 70's and 90's.
