

## **Allergies, Chronic Bronchitis & Emphysema, Pneumonia**

### **Allergies**

Yes allergies were wrecking my life from 1992 - 1996. My allergies would induce Asthma attacks in which I had to be hospitalized. They also caused me to have to take medication daily to be around my horses, hay, dogs, cats etc. Everything I loved in my life.

Nightmare.....I was living on the ranch in Bragg Creek with 40 horses, my dog, rabbits, trees, dirt, hay, etc. You can imagine the impact my allergies had. Some days I could barely breathe and had to use antihistamines and 2 inhalers. As my immune system weakened I also became allergic to penicillin, sulfa based drugs, morphine you name it. Life as I knew it was basically over for me. I was miserable. I could no longer enjoy all the things I loved to do.

I found out about Immunocal in 1996 and started taking it before it was available to the public. Within 3 months I was off o inhalers and antihistamines. I was feeling great and back to my old self. Life was good again. I could do what I wanted without worrying about getting sick. In fact, it is 14 years later and I have never even had a cold, sinus infection, allergic congestion, chest tightening, sneezing fits, itchiness, hives, nothing. No sickness of any kind. Immunocal has changed my life. I will never stop taking it or believing in the importance of this product to the Immune System.

Allergies are a sure sign of a weakened Immune System. In today's world our Immune System is constantly under attack. Immune support should be everyone's' top priority each and every day. **Carol-Ann, Calgary, AB**

### **Testimonial # 75 : Peter Reed**

Dear Hugh and Dr. Petrosino:

Please send another **(2) two more 30-pack boxes of Immunocal** to my mailing address. My wife and I are finding great value in using your Immunocal. Both of us have **severe seasonal pollen allergies**. Denise was taking over the counter drugs twice a day to control her symptoms. She has not taken these drugs in the two weeks since she began using Immunocal and it is the height of her allergy season. What surprised me was that her relief came within 24-hours of starting the protocol. Taking Immunocal twice a day is giving her better symptomatic relief than those drugs and they had side effects. Thank you! I have been taking Immunocal for three weeks. It took three years of **allergy shots** to reduce my allergies to this low of a level of symptoms. I have been through 4 protocols of allergy shots in my thirtyseven years of suffering. None have worked better than Immunocal and certainly none have worked as quickly.

Sincerely **Peter Reed Oakland, California**

### **Allergies Testimonial #76**

Jan 16, 1998

To whom it may concern: Fourteen years ago I was diagnosed with having a **growth on my liver** the size of a grapefruit. This growth has remained the same size all these years, but now I am happy to report that the Ultra-Sound I had done in Dec 97 revealed that this growth is almost gone. I am also grateful that I was introduced to **HMS 90** (Immunocal) in March of last year and began using the product then. This product has also got rid of my **allergies**, Arthritis in my finger joints is gone and mental attitude has improved. I am also very pleased with the results I have received from HMS 90. Sincerely, **J. Mary Johnston**

## **Allergies Testimonial #77**

This testimonial was given at the Immunocal Seminar at the Portland Airport Sheraton, Portland, OR on March 7, 2001. Hello, my name is **Tom Salazar** and I am from here, from Portland. Thank you all for coming this evening for an opportunity of great health and wealth. It's a privilege for me to be here and I'll tell you why. I'm a computer drafter that stares at a screen for 8 hours a day. I used to have a list of health challenges that were as long as my arm. They ran from A to Z, from **allergies, athlete's foot down** to zits and everything in between. It was so apparent to one of my coworkers, that he said, "Man, you were born on the wrong planet, man". Well back last December, serendipity if you will, I like to say God's Will in disguise, I heard about this product called Immunocal, and about its therapeutic value covering a long list of health conditions. I thought, "Right", who wrote their script, "a Hollywood Tabloid?" Yet, it caught my interest because their list paralleled my list. I came on that cold windy night on December 7th, and once I heard the facts, I could not help but get involved. It was for me a day that will live in infamy as far as diseases are concerned. Now I can run without gasping for air. I don't need to constantly use nasal sprays to clear my nasal passages. Now I don't go to bed tired and wake up tired. I don't need to go and have my liver checked for damage because of the prescription drug that I was taking. I don't need to worry about bloating up to 260 pounds because of mind-altering antidepressant prescription. Boy, you talk about me being fat and happy! In addition, I don't need to worry about the high cost of a prescription that came in a box about the same size as Immunocal. All the others prescriptions that were costing more than I wanted to pay because my insurance would only cover so much and I landed up paying the big difference. You know, in this light of high prescription cost, and the cost of an array of specialty herbs and supplements, I cannot afford not to take **Immunocal** and for more reasons than one. Folks, Folks, I am telling you this is for real. This is why I believe that Immunocal is destined to become the, Now listen now, The number one nutritional supplement of choice, **WORLDWIDE! Tom Salazar**  
**Portland, OR**

## **Chronic Bronchitis & Emphysema**

### **Testimonial # 78**

Dear Dr. Petrosino: A good friend of mine was all excited after hearing a presentation by Dr. Jimmy Gutman about Immunocal. In the question and answer session that followed his presentation she asked if Immunocal (HMS90 in Canada) could help someone with **chronic bronchitis**. When he answered that even individuals with **emphysema** had been helped, she couldn't wait to tell me about this "breakthrough in cell defense." I had been plagued with bronchitis for over 10 years and I can honestly say that I was doubtful that anything could help me, but she persuaded me to try it for two months. After six weeks of only one package a day, my lungs were completely clear. Even when I go to play pool in a smokey bar, I don't go to bed wheezing like I used to. It's helped my little girl with her **asthma**, too. THANK YOU, DR. BOUNOUS (the inventor), FOR HMS 90!" Sincerely, Joe J. Calgary, AB

## **Emphysema**

### **Emphysema Testimonial # 79**

**July 2003**

Hi Scott,

I tried calling, but was told your voice mail was not set up yet. So thought I'd write. I am doing well. In fact, on June 1st, when I turned 71 years old, I did a tandem sky dive. It was wonderful and I plan on doing one every birthday for

as long as I can. I never miss taking my Immunocal, and since I have been taking it, I have not been sick for one day. There have been people with colds and flu all around me. I clean for several people and have been in homes where there were sick people that sounded pretty contagious, but I never came down with anything. I feel I have Immunocal to thank, and also you Scott for **bringing it to my attention**. By the way, we jumped out at 13 thousand feet, then five thousand feet of free fall at 120 miles an hour (that took 1 minute) and then floated the rest of the way. It was just GREAT. Hope all is going well on your end. Sincerely, **Elinor Scott's Note: Elinor is in remission from Emphysema**

## **Pneumonia**

### **Testimonial # 81**

Dear Dr. Petrosino "I had **pneumonia** continuously until I got on Immunocal. Then I never had so much as a sniffle. I stopped taking it because I ran out of money, but I'm back on it now. Sincerely, **Sheila Clubb**  
**Ollie, IA** Wednesday, October 26, 2001
