

Hidradenitis Suppurativa

Testimonial # 114

"Dr. Petrosino My Name is Lori, I am a 26 year old female who has a disease called **Hidradenitis Suppurativa**. This disease makes you have **boils** like lumps in your armpits, groin, buttocks, thighs, and well pretty much any where you have sweat glands. This disease is very painful and disabling. In Dec/00 I came across Immunocal on the internet. So to make a long story short I been on Immunocal for 6 months now and I have not had a one of my blow outs (as we HS sufferers call them) in 2 wonderful mobile months. My area is the armpit, groin and sometimes on the buttocks, so it was very hard to walk, write, or even to sit down was a challenge. So in the case of having Hidradenitis Suppurativa this what I call a miracle. I never thought I would be able to do the things I enjoy again. But because of Immunocal I can.

Thank you so much you have no idea how much this product has helped me!!!!!!!!!"

Sincerely, Lori Saturday, May 19 2001
