

Protein toothpaste

T. Rivera

Protein toothpaste Testimonial # 177

I've been using the **Protein toothpaste** now for two months and I love it! Not only is it good tasting and refreshing but it has made a HUGE difference in my gums. For the first time in eight years I had a stellar review from my periodontist. If anyone knows about pocket trouble with their gums you'd understand the thrill of finding out they are closing up. My periodontist was so impressed he asked what had changed. Remembering that I had started using Protect about two months ago, I told him about the Protein toothpaste. Now he is interested. Being someone who always brushed and flossed, tried many types of toothpastes with no real results. I ate well and took vitamins but still couldn't get away from the deep pocket syndrome with my gums and then to have a 80% improvement within the last three months of seeing my periodontist was amazing. Now I don't have to see him for 8 months, unheard of with someone like me. This is a truly wonderful product and the results can be life changing and lucrative. I highly recommend others to try the same thing and see what their dentist say. Thank you Immunotec!! Sincerely,

T. Rivera.

Melina

Protein toothpaste Testimonial # 178

I've been using the **Protein toothpaste** now for four months and I love it! I have my children using it too. I have noticed in that time I never have gums that bleed, and no longer develop sores inside my mouth. We all have experienced canker sores, especially those of us who have stress in our lives. They will appear often and can be very painful. Since I have been using the **toothpaste and taking taking HMS 90** I haven't had to deal with them at all.
