

Rheumatoid Arthritis

Rheumatoid Arthritis Testimonial # 29

March 20, 1998 Rheumatoid Arthritis, and Fibromyalgia and Immunocal IMMUNOCAL CUSTOMER:Woman, midseventies, experiencing severe, non-relenting **pain throughout** her entire body, particularly at the top of her head, her feet and her entire left side.

PROGNOSIS: After a recent physical, Mrs. Howseman was told by her doctor that there was nothing they could do for her. She would have to **change her life** and accept the **limitations therein!** Hello, my name is Mrs. Howseman. I'm an **elderly lady (mid-seventies)**. I have suffered from **Fibromyalgia and Rheumatoid Arthritis** for some time, having tried just about everything on the market to get rid of this problem. NOTHING UP TO THE TIME I WAS INTRODUCED TO **IMMUNOCAL** HAD ANY POSITIVE EFFECT AT ALL. Alice Weiss told me about this new product, but I had given up on any real hope in helping myself. I say given up hope because after my last visit to my doctor, I was informed that the medical people could do nothing more for me. I was told that I'd have to accept pain as a limiting factor in my life. This was very depressing to say the least! My hairdresser, Alice Weiss, the owner of Bertlynn Hair Stylists, persisted – so I tried the **Immunocal**. After taking the Immunocal for **four days, at three pouches/day**, I awoke on the fourth day to a **feeling of energy** I hadn't experienced in a long time. The pain was not totally gone, but it was unquestionably less. When I went to place my feet on the floor, an experience always very, very painful for me, I was shocked and happy to **feel little pain**. I haven't felt this good in years! There is nothing else that I can attribute this change to and I continue to take one to two pouches/day. I'm a very happy person with this change. THERE IS NO DOUBT that I will continue taking IMMUNOCAL.

Sincerely, **Mrs. Howseman**

Rheumatoid Arthritis Testimonial # 30:

"On the fourth day of taking Immunocal, I remember thinking that I felt no different, but at 8:30 that night I got out of my car like I was twenty one, full of energy. It was an incredible feeling especially considering the fact that I had **Chronic Fatigue Syndrome** due to my **rheumatoid arthritis**. On day seven my hands looked and felt normal. They had looked like lobster claws, red, swollen, and painful. I must have looked at my hands every ten minutes for the next week with a big smile. Amazing!! .What happened about three weeks ago, six months after I started taking Immunocal, inspired me to tell my story. My **psoriasis** started to disappear, after thirty-six years. I had tried everything I could think of, even the doctors told me nothing would ever work, I still tried. The only thing they could recommend was a \$65.00 tube of cream about three inches long that had no effect at all. It's fun to watch my immune system kicking butt!! I am fifty-seven, and feel like a young man again! PS. The Magistral works also. Eight days after I started using the products my nightly trips to the bathroom stopped. When I ran out of Magistral it started again. I reorder, three days later, a restful sleep and has continued. Never will be without it again."

Henry Cheung, Ph.D. 07/20/2001

Rheumatoid Arthritis Testimonial: 31:

Dr. Petrosino: "I have been using your product [Immunocal] for a month now to help my **rheumatoid arthritis** and **fibromyalgia** and it has proven to work very well - better than most of the prescription medications I am currently on. I have noticed a decrease in effectiveness however the last 2 weeks and am considering taking 2 pouches per day. I registered on your "one box a month" plan and would like to switch to a two box a month plan, instead. ...I would like to start 2 pouches per day as soon as possible, (but only have a short supply left), I would appreciate a response as soon as possible. Thank you very, (very!) much. Regards," **Sharon W. Kanata**, Ontario, Canada
